

How do I make an Instant EFT payment with Payfast?

1. When you come through to the PayFast payment page, select Instant EFT and then select the bank which you bank with.
2. The next page will give you a link to launch your Internet Banking as well as account details to make payment to.
3. Using the launched window, you simply login as per normal and make a once off payment to the account details provided for the indicated amount.
4. Once you have done so, log out of internet banking and return to the window with the PayFast payment page where you click the “Verify my payment button”.
5. The system will then verify your payment has been received and complete the payment.
